Ah Wood, who was sentenced to two months' imprisonment for stealing two barrels of leaf tallow from the Hawaii Meat Company on June 24, has appealed to the Circuit Court from the decision of the District Court.

October 25 has been set by Judge Whitney as the date on which he will hear the petition of the Hawaiian Trust Company, executor of the will and estate of the late William McCourt, in which it asks to be relieved of further responsibility. The executor asks that it be given an allowance of \$469.35 and that it be charged with \$55.32.

Kim Pan, the young Korean who several weeks ago sprang into the limelight of publicity through the courts as the result of his ill-fated attempt to elope with See Moy, the daughter of Tom Soong, is not yet done in his fight for what he considers his rights. Sentenced by the District Court to serve a month in jail because he was found loitering on the property of Tom Soong at night, Kim Pan has appealed to the Circuit Court. Kim Sul Yune, his companion, is included in the appeal.

Sam Kahl, alleged by the police as an old offender, and who charged with having stolen sundry articles of adornment and wearing apparel, entered a plea of guilty, received a series of sentences from the District court bench this morning aggregating eighteen months' imprisonment.

Kahl is charged with the robbery of a Japanese hotel in which several lodgers are said to have lost valuable articles including a gold watch and other trinkets.

The Hawaiian is also charged with having effected an entrance to premises on Decha Lane the dressing room for a company of base ball players. In this raid Kahl is said to have made way with clothing, shoes, panama hats and a \$30 lei.

As Schofield Barracks, Kahl's stay was short lived, and it was there that steps were taken to effect his arrest. The officers declare that pairs of leggings, and a bicycle were removed by the Hawaiian.

The police record of Kahl shows that he has but recently served a two year sentence upon a charge of burglary, the man also being detained an additional two years because of breaking jail. Kahl also served time at the reformatory school.

Chief of Detectives McDuffie and his men believe that with the arrest of the Hawaiian they have cleared up the cause of a number of petty robberies about the city, which have occupied the attention of the police department for a number of months.

BANANA FIBER INDUSTRY.

The Ceylon Patriot of Jan. 30, 1912, deals with the possibility of the extraction of fiber from the banana plant after the fruit has been harvested. A stripping method using a wooden frame holding a blunt knife actuated by a bent bamboo pole or by steel springs, similar to the devices used for the hand stripping Manila hemp is described.

It is estimated that 1500 banana stocks will yield a ton of fiber; that a man and boy can strip 15 lbs. of fiber per day at a cost of 50 cents.

Thus the stripping cost Rs. 75 per ton. Baling, insurance, freight, commission &c, cost an additional Rs. 45, totaling Rs. 120.

The London price fluctuates, but is usually about Rs. 300 per ton, leaving a net profit of Rs. 180. The estimate is based on the assumption that the stocks cost nothing, having been grown for the fruit. An acre of ground ordinarily can be planted with 1500 plants from which fruit is gathered in 18 months. Fruit bunches selling at 40 cents yield Rs. 600 of which Rs. 250 should more than cover the cost leaving a net of Rs. 350 for the fruit, which better results are claimed.

Fibers are becoming so important in the world's industries that economical banana farming would seem to dictate that an effort should be made to utilize a fiber which nets one-half as much as the fruit.
